“ I worked with Jackie at a nursing home. We worked on same hall. We lost contact. I do know we need to try and keep up with our family, friends or even former coworkers. We never know what's going on with anyone. Jackie was sort of quiet but whenever she's was around you more she opens up. She is really a nice and great person. You will be truly missed.

“ Moma, this is Ebonie & Artis, we also have Armani and Admyral in this message. The twins are there at your funeral in lieu of us being there. We love you and miss you very, very, very much. You and I were just in the grocery store looking for the perfect thanksgiving ham. You were there showering me when I was diagnosed with MS in September. I paid that same contribution in December. Life is so unexpected. We pray that your soul is at peace. Until all of us meet again, please look over us and guide us down the straight path. We 🥰 love always.

Hi I'm a friend of your mom's Sissy. She is a beautiful soul to all who knew her. She was a wonderful friend and an amazing co worker. She was always smiling & one of the hardest working person I knew. She always talked about God to whom ever she met that seemed to be her biggest gift to spread the news of God. She was a gift to us here on earth & in heaven now God is holding her. Many prayers for you & your family & lots of Love
